[While Supergiant Games would master the idea of combining music and narrative with Transistor, Bastion's soundtrack in general is good listening, in-game and out. Some tracks stand out more than others, but none of them are bad either, with a lot of the music being a mix of Western/Vold country and techno. \(Light techno, not trance-inducing rave techno.\) "In Case of Trouble", "Slinger's Song" and "Spike on a Rail" in particular are some of the best tracks. Even if you don't get bonus material like with Transistor's OST, I'd say this is still worth a purchase if you liked Bastion's music.](#)
